Back to School

Looking for lunchbox ideas?

Try these simple and tasty ways to enhance your child's health and learning. [Click here](#)

Worth a Moment

It doesn't matter.

Recently when I was heading off on a trip, a friend said to me, "Just remember one thing. Whatever happens.....it doesn't matter!" Seeing the puzzled look on my face, she continued. "Well, if you miss a plane, it doesn't matter. If you lose a bag, it doesn't matter. Too many people let a mishap, often something relatively minor, ruin a trip and it's just not worth it. You are going to relax and enjoy. Don't let hiccups change that. So many people complain and react about so much.

Entire holidays can be ruined this way." To read on [Click here](#)

New Communications Platform

When you join the Garden Circle or you are a teacher running the Clever Kid Health & Play program in Schools and PreSchools you can now communicate with other parents and/or teachers who are a part of the programs. This allows the Circles of Learning community to grow and support each other with fast communication with each other. You can reach the home page on www.my-circlesoflearning.com

Getting back to Nature

Most of our programs involve nature as it is so important in this high tech world that we get back in touch with nature and the beautiful birds, animals and insects. I have just had the wonder of going to a Butterfly Farm where they breed the most truly magnificent butterflies and they all fly around you. We must stop killing our caterpillars with pesticides and start nurturing our insects. They add to the joy and beauty of life.

*Call us about our programs.
Have a wonderful month. Judith*
