Electric Magnetic Radiation

Safer ways to use mobile and wireless technology

How we can help our children reduce the effects of Electric Magnetic Radiation.

In this technological age EMR that emits from mobile phones, cordless phones, wire less laptops, and tablets. Today's children are using more wireless technologies for longer periods of time than ever before. Yet children are more vulnerable to the radiation they emit than adults and know less about how to protect themselves.

Australian designed and manufactured you can now purchase the Geoclense from our website and keep your family safe. [Click here](#) to buy

2 New Garden Circles - Thurgoona & Bondi

Our much loved Parents & Children's Edible Garden program has spread its wings and 2 more Garden Circles are starting. Thurgoona is based in the Albury/Wodonga area and is being run at the Community Centre on Saturday mornings. The new Garden Circle at Bondi is starting on a Friday morning at a community garden in Bondi Road. We have wonderful volunteers to run the program and equally wonderful parents, grandparents, carers and children attending.

Autumn is a truly beautiful season, enjoy the colours and have a wonderful month.

*Warm wishes,
Judith*

Join us at the Garden Circle and Discover Nature at its best

Experience The Garden Circle Health & Happiness Program for Children, Parents and Seniors. Learn skills and gain tips on nutrition, water, oxygen, feelings, thoughts, resilience and building self esteem for yourself and your children.

At the Garden Circle, people learn to respect nature, gain good eating habits and work together in harmony. The Garden Circles brings all generations in the community together, so they can grow and support one another. For full details of times, days and venues [contact us](#).

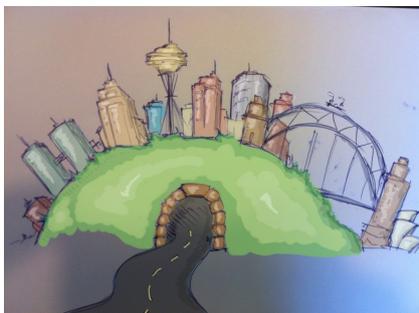

How one boy's issues helped Henty Public School

Henty Public School is able to run the ·Clever ·Cid Health & Play Pre School program because one little boy was in need of extra care for his behaviour and learning skills. The young boy is being supported through an agency which enables them to receive extra financial assistance for early intervention with his education. Now the whole Pre School community benefits, as every child participates to support this young boy through the program.

Consider how you can help the children in your School and/or Pre School to improve their learning and social skills. To discover more about the ·Clever ·Cid Health & Play program [click here](#)

The ·Clever ·Cid Health & Play program

This is available for Junior Primary and Pre Schools. Designed to complement the curriculums, both programs take a holistic approach to building a healthy body for better brain development. The outcomes are that children's learning improves, their behaviour improves, there is better class co-operation as the children discover a love of learning. This outdoor sustainable and environmental program covers all key learning areas, and appeals to all styles of learning, visual, kinaesthetic and auditory. For more information [click here](#)

Thank You Cross City Tunnel

Cross City Tunnel continues to be a major of Circles of Learning and it is through their generosity and support that we are able to distribute the programs in the Eastern Suburbs and Inner Western Suburbs to support children's learning with nutrition, art, movement and play within a supportive community.
